QB2 TESTING

UL 2703 RECOGNIZED COMPONENT

Total Quality. Assured.

MIAMI-DADE COUNTY APPROVED
NOA NO: 24-0306.05

ASTM E331, E2140, D7147 TAS 100(A) FL #35022

No sealant required

QB2, has passed testing without sealant. While you're welcome to use it, it is not required, allowing you to save a significant amount of time on the roof.

► **Extra Bonus:** No more fussing over stiff or runny sealant in cold or hot weather.

BoltSeal® Technology

Unlike sealant-based mounts, QB2 is mechanically compression-sealed once the bolt is fully driven to the roof.

The only mount that seals at the point of penetration
